11/118. Planning

Minerals & Waste Application

ESS/46/11/UTT

Land adjacent to the M11, Great Chesterford

Proposal – *Continuation of use with importation of inert material to restore the land without compliance with condition 4 (Completion Date) attached to planning permission ESS/16/10/UTT to allow an extended time period for infilling of the site from the 31st August 2011 to 31st August 2013 and restoration of the site from 30th September 2011 to 30th September 2013 in order to allow restoration of the site to be completed.*

The applicant has put forward that the main reason for this is that volumes of material being imported to the site over the last year have been significantly lower than expected therefore not allowing the site to reach required levels for restoration.

It should be noted that there is no proposed increase in the tonnage of material brought into the site, change in the types of waste currently accepted or number of vehicles.

It was agreed that a one year extension of the time period for infilling of the site was acceptable, from 31st August 2011 to 31st August 2012, conditional on the associated drainage works being completed earlier (to the satisfaction of the Environment Agency) by 29th February 2012.

11/119. Date of Next Meeting

The next meeting of the Parish Council is to be held on Wednesday 12th October 2011 commencing at 7.30pm in the Community Centre.
