

JUBILEE BEACON

It would appear from reading through the information provided that there are 3 options available to us:

1. We can construct our own beacon (detailed instruction on how to build one provided). We can apply to have the fact that we have built a beacon included in a brochure of 2,012 beacons that will be presented to HM The Queen.
2. We can apply to have a Church Tower Beacon fitted to the church for the even at a cost of £299 plus VAT. An example of this is at www.bullfinch-gas.co.uk
3. We can quietly go to the pub and raise a glass of port to toast her majesty.
